

Partnership Program

Disrupting the market of space operations

ENABLE is being built in collaboration with NewSpace companies.

Our early partners contribute to the definition and development of this product, and benefit from:

- ❑ Free-to-use software components
- ❑ A product developed to their business needs
- ❑ Free expert support
- ❑ Exposure to the latest technologies

In the current NewSpace era, a revolution is required to drastically improve the cost and performance of space operations.

ENABLE is the world's first cloud-based end-to-end platform allowing for a true Operations-as-a-Service offering to space ventures.

WE EMPOWER SPACE VENTURES.

ADVANCED SYSTEMS.
SMART OPERATIONS.
AS A SERVICE.

Advanced systems

- ❑ **High-end IT technologies in the cloud**
Increased flexibility, scalability and reliability
- ❑ **Leveraged on decades of experience in mission control and operations**
Designed and developed by the industry experts
- ❑ **Automated updates, maintenance and backups**
Always sharp and secure
- ❑ **Machine learning**
Automatically detect and resolve anomalies
- ❑ **Flexible micro-service architecture**
Inject complete systems or individual functions to your existing infrastructure
- ❑ **Advanced simulation techniques**
Increase asset lifetime and performance

Smart operations

- ❑ **Easy operation of large satellite constellations**
Efficient operational concept with a user-friendly interface
- ❑ **Integrated end-to-end ground segment**
Monitor and control all assets from one place
- ❑ **Optimised mission planning**
Increased efficiency by improving asset management and tasking/scheduling processes
- ❑ **Highly automated operations**
Free-up manpower and reduce cost
- ❑ **Scalable operations**
The service grows together with your constellation
- ❑ **SLA monitoring at all levels**
Our clients' satisfaction is key

As a service

- ❑ **Pay-per-use service**
Pay only for what you need and when you need it
- ❑ **No CAPEX, lower OPEX**
Leave upfront maintenance to us.
Use your resources where they add most value
- ❑ **No need for custom software development**
Reduce your risk and time to market
- ❑ **Immediate availability**
Minimal tailoring effort to adapt to your needs
- ❑ **Carefree mission operations**
Focus time and resources on your core business
